Item Description Please carefully review the photos and details of the item before purchasing to avoid buying the incorrect item. Item is in good working condition unless otherwise stated. All product photographs have been taken by the Minnesota Computers team members for every listing, but the actual product you receive may not be the item photographed (for example, the item you receive may have a different serial number, but the same part number and all of the same parts are included). Any parts not photographed WILL NOT be included. Only what is photographed will be included in your purchase.

30 Day Money Back Guarantee All items are tested or pulled from a working system. All shipments should arrive in functional condition and within a timely manner. If you do not receive your product or the product you receive is defective, we will refund your money within 30 days. Cosmetic issues are not covered under the guarantee.

Warranty and Return Policy All products come with a 30-day warranty. We provide original stock photos. Cosmetic and compatibility problems do not fall under our warranty policy. If your return is authorized, please ensure you return it in the same condition and preferably the same packaging in which the item arrived. We will inspect the item and then refund the customer. If you are disappointed with your product, please reach out to us within 7 days of delivery. We must receive return/exchange items. Returns/refunds for any reason other than functionality or the item not matching the description are up to our discretion. Please contact us with any questions. We understand if you encounter any setbacks. We care about each buyer and strive to solve any problem in the best business manner.

Drive arrived as advertised, even a bit better condition than advertised. Packed well, fully wiped, no bad/reallocated sectors, no CRC errors, 34k hours. And a very fair price considering what some others are selling similar if not worse condition drives for. Fantastic Seller A++++++++

Okay, so the wrong card came, but the one that did arrive worked well, and it worked really well. I won't be asking the seller to send me another one. The condition that the wrong card was pretty good. I'm giving this seller 4 stars because customer service was great, but he did ship me the wrong thing, so yeah, he gets 4 stars for that reason, and the price was pretty reasonable. The appearance was the wrong card but I'll give him a pass because the GPU did work so I have zero complaints.

This is not my first time buying from this seller, and I come back for good reasons. This is one of my favorite vendors for computer parts. Their prices are great and they consistently deliver quality goods. They are also very well packaged and shipped very quickly. If, and whenever I've had any issues with the product, they have always been fair and willing to remedy the problem. If you're wondering if you should buy from this seller, I would not hesitate.

Fantastic experience! The NVLink bridge arrived in excellent condition, exactly as described and securely packaged. It looks and functions like new—tested perfectly with my RTX A6000 setup. Shipping was fast, communication was clear, and the seller was professional throughout. Minnesota Computers clearly knows their hardware. Excellent quality and service... would absolutely buy from them again!

This is a seller that obviously cares. I bought a used workstation graphics card for sub $25. They packaged it like it was a $1,000 gaming GPU. I often get computer parts delivered to me just thrown into a box with no protection, so I appreciate when someone shows great care for how items are packaged. Also, card looks and works like new. Great deal, great seller.

Item was packed well and shipped within a day or two. Unfortunately the item received was not the item as listed in the description. Contacted seller twice, 1 per day after receiving the shipment. Both times the seller responded the next day, and said "checking" on it. I consider this slow and not really responsive to the issue, nor acknowledging an issue exists. It felt more like a brush off. Will not be buying from this seller again and would advise others to think twice before they do.

All servers finally arrived seperately, packaged extremely well one had some bent sections and for some reason thermal paste glob on the pins of the server. I was able to vacuum it up but outside of that everything else was perfect. Great value. Awesome seller. Looks like new.
